

Growing Faith Series

<https://churcharmy.org/growing-faith/>

This is an excellent resource produced in the UK by Church Army consisting of 3 six session studies:

- Faith Questions focussing on helping Christians answer difficult questions about faith, and give confidence to share faith with others.;
- Faith Pictures focussing on helping Christians of all traditions talk about their own story of faith with confidence and
- Faith Shared focussed on helping churches of all traditions think about how they connect with their community.

It is ideally undertaken as a group and could be incorporated into already existing bible discovery groups.

Features of the series:

- It is free - all resources are downloadable, including a short video and study outline and handouts
- Great activities to facilitate discussion of each topic. The group I led found it engaging, very thought provoking and practical in application.

Please feel free to call me if you have questions.
